The Latest and Best War-Map Supplement

THE LITERARY DIGEST of January 9th, 1915, (out to-day) will include

a colored War-Map Supplement well worthy of preservation. The foremost firm of map-makers in the United States has been engaged upon it for the past six weeks and no expense has been spared by us to make

the Maps wonderfully complete. These Maps show with much detail the Western theater of the war where Germany meets England, France, and Belgium, as well as the Eastern theater of the war where Russia meets Germany and Austria. The towns,

railroads, canals, forts, mountains, and rivers are clearly indicated. A special Map shows in even greater detail the region of the main

military operations along the Franco-Belgian-German frontiers.

The Maps are printed on specially made bond paper. The Consul General of one of the warring powers said after a careful examination of the Map of his country, "This Map is absolutely correct and far better than any other of its kind printed in New York that has been

brought to my notice." This number of THE LITERARY DIGEST will sell out very quickly, so that you should get your copy from your news-dealer immediately to avoid

Subscribers who wish their friends to have these latest Maps should inform them at once, or else send us a list of their names enclosing ten cents for each name, and we will supply them with a copy of the issue by mail.
